**Any announcements will be on the google classroom stream. Assignments are under classwork tab on google classroom.

Assignments are turned in via Google Classroom. Students may also email completed assignments. Most assignments will be google form with a simple submit button.

Students may mute their microphone but be prepared to unmute if I ask them a question. Cameras should be on unless we are doing a live quizz game and I can see that they are actively engaged. 6th Grade students will be assigned courses in Edgenuity but there will be supplemental lessons to go along with Edgenuity.
