7th Grade Math
7th and 8th Periods-3rd Block Superstars
Code: Inkbrui
Meeting Time: 1:20-2:40

*All letters are lowercase for class codes.

All students will find all information on google classroom. I make announcements everyday under stream, which is another way to contact me other than email. My classwork for the day is always listed under classwork on google classroom. My math class is taught everyday for most of the time period. I expect you to listen, keep your cameras on, have your workbooks out and ready, and answer questions in class. All students have their own workbooks and will need these most every day.

To answer questions on my classwork, students use the Kami app which we have all downloaded and practiced before remote. They ALL know how to use this. Using Kami app allows you to save work and send back to me. If you have a printer, you're welcome to print, work on the paper, and return to me by pictures or scanning. Students have done all of this many times in class.

Classwork is due at time assigned if due date is given. If not, you can do before end of 9 weeks.

I will assign you IReady math lessons on occasion, and if I do, it will be placed in your stream and classwork in google classrooms.

All lessons are important and new standards are taught daily. Please log in and watch class everyday and work on assigned classwork. Any assignments or quizzes not returned will be given a 0 for a grade.

If you have any questions, please email me at the above email address or let me know during your class time.

Mrs. Owens
