

Remote Learning for Dr. Schmidt's Classes

Financial Planning
Career Exploration
Accounting I
Intro to Business & Accounting

If we go full remote, this is what you should do to continue learning in my classes:

Go to <https://drschmidt.home.blog/> and click on daily assignments for your class. There is also a link to this on the **Synergy** grading software under gradebook resources. The **same** assignments are posted in **Microsoft Teams**, <https://login.microsoftonline.com/> (enter school email and password), with the relevant documents attached. You can go to **either** for information.

Most of our work will be in the **iCEV software**. You can access it here: <https://login.icevonline.com/Login>. Remember that the assessments are set up for you to do twice. After the first time it will tell you what you did wrong so that you can **fix it** for the second time. Make note of what you need to correct. I will take the highest grade. Most interactive assessments and worksheets are set up in that fashion.

I will occasionally attach a **link** for something that you should read, do online or watch on YouTube that is **not** in iCEV. However, most assignment related PowerPoints and videos are attached in the iCEV program.

If you need to turn something in, you can either email it to me, tschmidt@mauryk12.org, or post it in **Microsoft Teams**. If I assign an assignment in pdf format, open a Microsoft Word document and put the title of the assignment, your name and then type the answers, numbering the same as the assignment. You do not need to type the questions unless I tell you to do so. Upload the Word document with the answers. If I ask you do something artistic like a poster, take a picture of the poster and upload it in Teams.

As remote learning continues, I expect to hold classes where you will remote in to participate as a class. If this is the case, please be **on time and prepared to learn**. Avoid having distractions around you. More instructions will follow on how and when to remote.
